POWER SUPPLY

AUTOMATED PRINTER SUPPLIES

We Make Printing Easy.

Introducing a simple way to supply your printers: The Power Supply System.

You're busy as it is. Why should you have to worry about your printers running out of toner, what inventory you have on site and what you need to order from one or multiple suppliers?

Through a simple 3-step process, we ship you toner just when you need, where you need it.

The Power Supply System's proprietary data analysis considers various elements before processing an order for toner:

❯ Evaluation of device usage over various periods of time

❯ Review device data including page coverage, percent toner remaining, cartridge yields, etc.

❯ Compile data through exclusive algorithms to determine number of remaining days of toner

1 READY

We install our Data Collection Service® at your site.

2 SET

MYPRINTERMANAGER.com

We setup your account in www.myprintermanager.com and enter printer device ID's for shipping (with the support of our technical team).

3 GO!

The Data Collection Service® and Power Supply System begin tracking device supply status and shipping your toner!

With our Power Supply Routing Labels, supplies are individually labeled with a device name, department and contact name, and delivered directly to the customer's desktop.

Deliver To:
Parts Area Mountville, PA
USKGOO5934
HP 4345 mfp series
Q5945A

AUTOMATED PRINTER SUPPLIES

Your Benefits

With the Power Supply System we take the guess-work, frustration and extra cost out of supplying your printers. The process is simple and the benefits are substantial:

❯ Automatic ordering, shipping and desktop delivery of your printer supplies

» No mis-ordering of supplies

» No "rush" or overnight ordering

» No early replacement

» Complete visibility on order status through our toner tracking tool customized for your company on: www.myprintermanager.com

❯ Reduced supply costs

» Eliminate excess in-house supply inventory

» Better use of working capital

» Reduce risk of "shrinkage" (theft) of supply inventory

Sound to good to be true? It's not! Contact us today to get up and running with the Power Supply System and take the frustration, guesswork and extra cost out of supplying your printers.
